**UAMS Library Goes Wireless!**

**Annual Dinner Meeting of the History of Medicine Associates of the UAMS Library**

**Current Awareness Tools**

**Outreach News:** PubMed Tips for Full Text

**New Acquisitions**

*July 1 - August 18*
IMPORTANT CHANGES IN LIBRARY POLICIES BEGIN OCTOBER 1ST!

The UAMS Library has developed two new policies in an effort to ensure that materials are more readily available in the Library when needed. These policy changes should result in better access to the printed information resources in the Library.

These changes have been discussed with, and approved by, the Library Advisory Committee, and Dr. Larry Milne, Vice Chancellor for Academic Affairs.

1) **The Library will NOT check out journals beginning October 1, 2004.** With this decision, the UAMS Library joins many other major health science and undergraduate libraries that do not circulate journals.

The non-circulation of journals will save researchers and library staff a great deal of time and effort. Many people have expressed frustration with not being able to obtain journal articles when the journals they need are checked out. This problem is magnified when journals are not returned by the due date.

The Library frequently has to incur the cost of obtaining articles on interlibrary loan because the needed journals are checked out. In addition, the Library staff spend significant time and effort retrieving overdue materials.

If you would like to discuss this or any other UAMS Library policy, please contact Mary Ryan, the Library Director, at RyanMaryL@uams.edu (686-6730).

2) **The Library WILL CHARGE FINES for overdue materials beginning October 1, 2004.**

Fine: The Library will assess a fine of **$1.00 per day**, with a **two day grace period**, for all overdue books and LRC materials.

The same fine will apply to **all recalled items** and to **overdue materials borrowed from other libraries through Interlibrary Loan**.

Additional fees: A **$15.00, non-refundable invoice/billing fee will be assessed after three overdue notices have been sent. This fee will be in addition to the fines accrued for the overdue item.**

Please contact Dena Plaisted, Chair DAS at PlaistedDenaK@uams.edu (686-6734) or Libby Ingram, Head of Circulation, at IngramLibbyE@uams.edu (686-6741) for additional information, or for questions regarding the new policies.
FROM THE LIBRARY DIRECTOR

UAMS LIBRARY 2003/2004 ANNUAL REPORT AVAILABLE

Some highlights of the annual statistics on page four of the report are as follows:

- While the gate count dropped slightly, the number of registered users rose from 5,212 to 6,559.
- The use of the physical facilities nearly doubled, especially the testing room, instructional room, faculty development room, access grid room, and 3rd floor group rooms.
- Use of the Library’s website increased 18% (from 338,820 to 398,860 sessions) and use of the ARHealthLINK website increased 45% (from 17,894 to 25,888 sessions). The Library’s website was redesigned in the past year, the ARHealthLINK website will be redesigned this year, and the new public health information website will be made available in the fall.
- The number of items used in-house and checked out dropped and will probably continue to do so as more items are made available online (and the number of website sessions will continue to rise). About 90% of the Library’s journal subscriptions are available online, and this number will increase in the coming year as we continue to drop print subscriptions.
- While the number of instruction sessions fell slightly, the number of people receiving instruction rose by 10%.
- The number of mediated searches rose by 28% and the number of reference consultations more than doubled.
- The number of items borrowed from other libraries dropped slightly, but this number will probably increase significantly over the next few years as we cancel journal subscriptions.
- The number of items we loaned to other libraries increased by 17%, probably due at least in part to the fact that we give excellent ILL service and other libraries use the libraries that give the best service, but the number of items loaned will probably drop as we cancel journal subscriptions.
- The number of items used in the Historical Resource Center increased by 17% (from 816 to 957) and will probably continue to do so as we make information about the materials more readily available on the website and in the Library’s catalog, and as we continue to digitize the photograph collection.
- The number of outreach contacts increased 335% (from 619 to 2,690), a very significant increase in service to the citizens of Arkansas.
- The implementation of the Go-Print pay-for-print system resulted in a savings of over $17,000 in paper and toner, and if this trend continues, the system will pay for itself within a few years.

In summary, the use of the Library’s resources and physical facilities increased tremendously during the year, and I expect that use will continue to grow as resources are made more readily available electronically and the staff continue to promote use of these resources.

Please let me know if you have any questions about the information in the report.

Mary L. Ryan
UAMS Library Director
Are you looking for clinical images for your lectures or PowerPoint presentations? Try searching the images.MD (iMD) database of over 50,000 images in general areas of medicine. On campus, you can choose images.MD under Databases on the UAMS Library website or you may go directly to: www.imagesmd.com. From off-campus, you must enter iMD through the Library’s website.

For a quick image find, explore the images on the opening iMD page by browsing by collection or specialty. For a sophisticated search, select “Advanced Search” and find the keyword search form. Here, you can limit your search by medical specialty, image type such as a chart/graph, artwork, or photograph, image modality, clinical descriptors, and collections which includes diseases. You can select more than one limit by holding down the Ctrl key, but be aware, you may find few results if you limit too much. See the image search below for charts or photographs of tuberculosis during disease diagnosis.

Another feature of iMD is the ability to search, store, and create a PowerPoint presentation within “My Slides” in your own personalized profile. From the opening iMD page, register and create a username and password. Once you sign into your personal iMD account, you can use these features.

You can save images in two ways. You can “right click” on an image and select “save image as” to save the image on your computer. Once you save the images from iMD, the images will remain available for your use.

If you would like to save images into your personalized account at images.MD, you can add these images to a slideshow by selecting the (+) for each image in iMD. Once you select all your slides, choose “My Slides” and you can preview your show. To create a PowerPoint presentation through iMD with a maximum of 20 images, choose “create PowerPoint presentation” in the “Slideset Option,” and enter your email address. The show will be sent to your email account where you can open and develop your accompanying slides.

For a virtual tour of this resource, select iMD Tour. The Library will also offer a demonstration of this resource at the next Friday@Noon. We will meet in COPH building, room G226 at noon on Friday, September 10, 2004.

If you have any questions, please contact the UAMS Library Reference Services Department at 686-6734 or libraryreferencedesk@uams.edu Mon-Friday 7:30 a.m.-6:00 p.m. or the Library Learning Resource Center (LRC) at 686-6752 all the hours the UAMS Library is open, or the ACH Library at 364-1801.

The College of Medicine and the UAMS Library are sharing the cost of the subscription images.MD.

SEMINAR ON PATENT & TRADEMARK INFORMATION OFFERED

The Arkansas State Library, in cooperation with the Arkansas Small Business Development Center and U.S. Small Business Administration, is offering a seminar on “Researching Patent and Trademark Information”. The seminar will be held Tuesday, September 21, 2004 from 9-4 at the UALR Cooperative Extension Service, 2301 S. University, Little Rock.

Topics to be covered:

- Trademarks
- Copyrights
- Utility and design patents
- Provisional patent applications
- Invention promotion firms
- Patent and trademark searching
- Electronic filing
- On-line access

Cost: $15.00

For more information, call 1-800-862-2040, or check the webpage at http://asbdc.ualr.edu

UAMS LIBRARY GOES WIRELESS!

The UAMS Library has gone wireless! The Library has nine wireless receivers throughout the Library. Laptops, PDAs, and cell phones with Wi-Fi network connectivity can access the Internet throughout the Library.

- Anyone with wireless enabled devices can connect to the Internet via the UAMS Aruba wireless network by entering his or her email address and signing in as ‘Guest’.
- UAMS faculty, students, and staff must contact the HELP desk (686-8555) to configure their wireless enabled devices before connecting to a UAMS network or Intranet.

Questions? Talk with the Library Technical Support Team (686-8822) or the Library LRC (686-6752).

ANNUAL DINNER MEETING
OF THE HISTORY OF MEDICINE ASSOCIATES
OF THE UAMS LIBRARY

Dr. Aubrey J. Hough Jr. will be the speaker at the twenty third annual dinner meeting of the History of Medicine Associates on September 23rd, 2004, at the UA System Board Office. His timely topic will be “Historical Roots of Bioterrorism and the Implications for the Future”.

Dr. Hough serves as Associate Dean for Translational Research and Special Projects in the College of Medicine. His responsibilities include biodefense research and education in the College. He was professor and chair of the UAMS Department of Pathology for over 20 years. Dr. Hough is a graduate of Hendrix College and is one of only 60 graduates of the college to be honored as a Distinguished Alumnus. He earned a medical degree at Vanderbilt University School of Medicine in 1970. He came to UAMS in 1980 as professor and vice chairman of the Department of Pathology. He served as chair of the department from 1981-2002. During his tenure he won many awards such as the Distinguished Professor Award from the Arkansas Caduceus Club.

Reservations for the dinner can be made by contacting Margaret Johnson at 686.6733 or johnsonmargareta@uams.edu.

Reservations are $25 for members and guests. Non-members pay $40, which includes a one-year membership in the Associates. Guests of non-members pay $25. Reservations should be received no later than September 15th.

Margaret Johnson,
Head, Historical Research Center
CURRENT AWARENESS TOOLS

Database Searches

Ovid’s AutoAlert
Create and save a search strategy to run as an AutoAlert. New citations will be automatically emailed to you each time the database is updated.

PubMed's "Cubby"
Store your PubMed search strategy for future use. When you return to PubMed, simply log in to your personal Cubby then select your search and click "What’s New" to identify new citations.

EBSCOhost
Create and save a search strategy to run as an Alert. The first time you select the “Search History Alerts” tab from the Advance Search screen you will be prompted to register for a MyEBSCOhost account, then sign in to MyEBSCOhost to set up your alert profile.

Tables-of-Contents Alerts from Your Favorite Journals

Many individual journals and journal collections allow you to register to receive email alerts when a new issue becomes available. Visit your favorite journal’s web site and follow the instructions to register and set up an alert. If the UAMS Library subscribes to the electronic version of the journal, you may be able to link to the full-text of the article directly from the email alert.

Brynn Mays
Reference Librarian
OUTREACH NEWS
PubMed Tips for Full Text

Do you know how to find full text articles in PubMed? There are various methods to limiting your search results to all full text journals in PubMed or free full text in PubMed or to those journals owned by the UAMS Library (both electronic and print). You may want to add the following tag commands to your PubMed search strategy where appropriate.

Each of these commands must be typed in lower case and connected to your search strategy by AND in all caps. See screen capture for example.

- Free Full Text in PubMed
  - free full text[sb]
- Full Text Journals in PubMed
  - full text[sb]
- Journals in PubMed available @ UAMS Library
  - loprovuamslib[filter]

You may also want to familiarize yourself with the icons listed next to each citation in the Summary display. The full page icons with green and green/orange bars are only shown for Free articles. Many full text articles will have the abstract icon.

If you have questions about these tips or would like additional information or training on PubMed, please contact Susan Steelman, MLIS – Coordinator of Outreach Services, 686-6737 or SteelmanSusanC@uams.edu.
