September/October 2005: Issue 127

Dr. Joe Thompson and Dr. Joycelyn Elders to Speak at SCC/MLA Conference:

The South Central Chapter of the Medical Library Association (SCC/MLA) will have their annual Conference, Public Health Challenges: The Librarian’s Role, October 22-26, 2005, at the Peabody Hotel in Little Rock, Arkansas. Special events include a general session keynote address, Public Health Challenges, by Dr. Joe Thompson; a luncheon address, The Role of Medical Librarians in Improving Health Care, by Dr. Joycelyn Elders; and a Farewell Banquet at the Clinton Presidential Library and Park. There are various registration options and opportunities for participation by non-SCC/MLA members. The UAMS Library has been handling local arrangements for the Conference, and many of the staff will be participating in Conference activities and meetings.

Joe Thompson, MD, MPH
Chief Health Officer for Arkansas, and Head of the Arkansas Center for Health Improvement, Little Rock, AR

Joseph W. Thompson, M.D., M.P.H, is an Associate Professor at the University of Arkansas for Medical Sciences and practices as a general pediatrician and preventive medicine specialist. As the Director of the Arkansas Center for Health Improvement (ACHI), Dr. Thompson is responsible for developing health policy, research activities and collaborative programs that promote better health and healthcare in Arkansas. He works closely with the Governor’s office and the Arkansas Legislature as well as with public and private organizations to support relevant public health policy topics such as access to quality care. Through ACHI, Dr. Thompson has led efforts in planning and implementing healthcare financing reform, tobacco- and obesity-related health promotion and disease prevention programs.

Most recently, Dr. Thompson was nominated by Governor Mike Huckabee and confirmed by the Arkansas Department of Health’s Board of Directors to serve as Arkansas’s first Chief Health Officer. In this position, Dr. Thompson will be responsible for identifying strategies and shaping policies to improve the health of Arkansans.

Joycelyn Elders, MD, MS
Former U.S. Surgeon General and Professor Emeritus, University of Arkansas College of Medicine, Little Rock, AR

Joycelyn Elders was nominated surgeon general of the US Public Health Service by President Bill Clinton in July 1993. She served in this post until January 1995, after which time she went to work at the University of Arkansas Children’s Hospital until her retirement in June 1998. She is now a professor emeritus of pediatric endocrinology at the University of Arkansas College of Medicine.

At fifteen, she received a scholarship from the United Methodist Church to attend Philander Smith College in Little Rock, AR. Upon graduation at eighteen, she entered the US Army as a first lieutenant and received training as a physical therapist. Elders attended the University of Arkansas Medical School on the G.I. Bill. After graduation in 1960, she was an
intern at the University of Minnesota Hospital–Minneapolis and did a pediatric residency and an endocrinology fellowship at the University of Arkansas Medical Center–Little Rock. She ascended the academic ladder to full professorship after her fellowship and board certification in 1976. Elders joined the faculty at UAMS as a professor of pediatrics and received board certification as a pediatric endocrinologist in 1978. She was appointed director of the Arkansas Department of Health in October of 1987. While serving as director, she was elected president of the Association of State and Territorial Health Officers. She also holds a Master of Science degree in biochemistry.

You are invited to visit the conference website for complete program information and continuing education opportunities: http://www.library.uams.edu/scc2005/. For further information, please contact Dena Plaisted, Local Arrangements Chair, at PlaistedDenaK@uams.edu, or Mary Ryan, Program Chair, at RyanMaryL@uams.edu.
Sally Kasalko Retires From UAMS Library

The UAMS Library and invited guests from across the campus bade a fond farewell to Sally Kasalko at a retirement party given in her honor on August 31, 2005. Sally was a very familiar and well-respected figure in the library and on campus. She served in the Reference Division of the Library and on many campus committees during her 37-year career at UAMS, and she touched the lives of many people. Among the guests who shared conversation, pizza, salads, cakes, cookies and lots of fun with Sally were Dr. Larry Milne, Vice-Chancellor for Academic Affairs, Dr. Richard Wheeler, Executive Associate Dean for Academic Affairs in the College of Medicine, and Dr. James Pasley, Associate Dean for Educational Advancement in College of Medicine. A number of Sally's retired colleagues also stopped by to wish her well. Sally received an array of retirement gifts and was presented with the following resolution that includes highlights of her distinguished career.

Resolution

Whereas, Sally G. Kasalko, B. S., M.L.S., Professor/Librarian and Reference Librarian of the UAMS Library retires on August 31, 2005 from the Library and the Faculty of the University of Arkansas for Medical Sciences;

Whereas, Ms. Kasalko joined the Library Faculty in 1968, obtained a Master of Library Science degree from Vanderbilt-Peabody Graduate School of Library Sciences in 1981, passed the first national Medical Library Association examination and was awarded a Certificate of Health Sciences Librarianship in 1982, and was inducted into the Academy of Health Information Professionals at the Senior Level;

Whereas, Ms. Kasalko served this institution with distinction for over 37 years in the Reference Division of the Library in various positions including Division Head;

Whereas, Ms. Kasalko served this institution as Chair of the Academic Senate, chair of various Senate committees, and member of the campus-wide Tenure Review Task Force, 1997-1999;

Whereas, she capitalized on her computer interest and skills to inaugurate the Computer-assisted Research Services of the UAMS Library, initiated and trained UAMS Library staff in the use of computers in libraries, provided online workshops on computer-assisted reference work throughout the State, and became in 1991 the Library Microcomputer Coordinator with responsibilities for assisting other units on campus in the use of microcomputers for several years;

Whereas, Ms. Kasalko has been a member of Beta Phi Mu, Library Science Honor Society;
Whereas, Ms. Kasalko assisted in the formation of the Arkansas Regional Medical Program and supported the Rural Hospital Program, and developed and implemented the initial training and services for the Area Health Education Center librarians in Arkansas;

Whereas, she participated in the organization of Arkansas' Pre-White House Conference on Libraries in 1979; was a co-coordinator of the state planning meeting "Building Consumer Health Information Networks for Arkansas," and developed and taught workshops throughout the state on consumer health information;

Whereas, Ms. Kasalko serves as a voting member on the UAMS Institutional Animal Care and Use Committee, reviews all new research proposals to ensure that database searching is comprehensive and accurate, inspects animal care facilities and labs, and has assisted in the overhaul of procedures; and

Whereas, Ms. Kasalko supported professional organizations at the state, regional, and national level, including serving as chair of various committees of the Arkansas Library Association, the South Central Chapter of the Medical Library Association, and the Medical Library Association, for whom she was the Webmaster for the Public Services Section;

Now, Therefore, Be It Resolved By The Board of Trustees of the University of Arkansas that the Board expresses its deep appreciation to Ms. Kasalko for her part in the development and progress of this institution and names her "Professor and Reference Librarian, Emeritus" effective October 1, 2005; and directs the Secretary of the Board of Trustees to spread this resolution upon the minutes and to transmit this resolution to Professor/Librarian Sally G. Kasalko.

Sally's retirement plans include extensive travel and pursuit of various leisure activities. However, we are happy to report that Sally is not leaving behind all UAMS activity. She will serve as a volunteer at the South Central Chapter of the Medical Library Association Conference being held in Little Rock this month and she will continue her service on the UAMS IACUC Committee. Sally has seen many students, researchers, faculty and staff come and go over the years, and we have all benefited from her knowledge, research skills, and cheerful, outgoing personality. She will be missed, but we look forward to her new involvement with the UAMS community as a Professor and Reference Librarian, Emeritus. Congratulations, Sally!

PubMed Tips & Blips:

Welcome to the new "PubMed Tips & Blips" column that will be a recurring feature in the UAMS Library Newsletter. Each tip will be brief and added to the Archive for future reference. Blips (recent news items) about PubMed will also be posted here.

PubMed Tip #1 Access PubMed through the Database link on the Library’s website.

This will provide you access to our full text electronic journals while searching.

PubMed Tip #2 Enter each concept of your search individually and click the Go button.

Use the History tab to view & combine your search statements.
PubMed Blip #1: PubMed will replace Ovid MEDLINE as the UAMS community’s primary access to MEDLINE in June 2006. PubMed includes:

- MEDLINE (journal article citations from 1966-present),
- Daily updates with in-process citations (not yet fully indexed),
- OLDMEDLINE (journal article citations from 1950-1965), and
- Links to UAMS full-text journal subscriptions and NCBI molecular biology databases.

If you have questions about PubMed or would like to schedule an individual consultation or department presentation, call the Library Reference Desk at 501-686-6734 or email LibraryReferenceDesk@uams.edu.

- Susan C. Steelman
Ben Ridout Joins the UAMS Library Faculty:

Ben Ridout, an avid mountain biking enthusiast, brings his considerable public service experience and proven research skills to his new position of Reference Librarian at the UAMS Library. He recently graduated with an MS in Information Studies from the University of Texas at Austin. Ben also holds a BA in Political Science from Texas State University in San Marcos, TX. During the summer of 2004, Ben participated in an Internship at the Harlingen Regional Academic Health Center Library where he provided reference and research assistance for medical school faculty, students and regional health professionals.

Ben will be orienting himself to the UAMS Library and campus beginning October 3. His principle responsibilities will include providing reference and research assistance to UAMS Library users and outreach services to AHEC libraries, hospital libraries, and individual health professionals. The library welcomes Ben and his wife, Kathy, to Little Rock and to UAMS.

To contact Ben, email bbridout@uams.edu or call the Library Reference Desk at 686-6734.
New Online / PDA Resources at UAMS Library:
InfoRetriever / InfoPOEMS

InfoRetriever is a system of reference tools and evidence-based medicine information which functions as a quick searching tool for clinicians at the point-of-care. A few strengths of InfoRetriever are its comprehensiveness, levels of evidence, and full function ability for the Palm and Pocket PC.

A popular feature within InfoRetriever is the graded evidence-based medicine resource, InfoPOEMS (Patient-Oriented Evidence that Matters). An InfoPOEM will address a topical clinical question and include a summary of outcome measures based on the literature found in PubMed MEDLINE. A direct link to the article(s) is available in each POEM. These POEMS can be delivered daily by email, or searched by topic within InfoRetriever and on the PDA.

The following resources are available for searching independently or simultaneously in InfoRetriever:

- 5 Minute Clinical Consult
- Clinical Rules and Calculators
- Cochrane Database of Systematic Reviews
- Diagnostic Tests (by Symptom)
- Diagnostic Tests (by Disease)
- Drugs of Choice (Practice Guidelines)
- History/Physical (by Symptom)
- History/Physical (by Disease)
- InfoPOEMS© synopses
- Number Needed to Treat
- Patient Education Handouts
- Photo Atlas
- Practice Guidelines

* indicates links to PubMed

A review of InfoRetriever is available within the following article in PubMed Central: Grandange KK, Slawson DC, Shaughnessy AF. When less is more: a practical approach to searching for evidence-based answers. Journal of the Medical Library Association, 2002 July, 90(3): 298–304.

Psychiatry Online:

Psychiatry Online is a resource offering ebooks, practice guidelines, journals, and self-assessment tools.
Any section of selected publications in Psychiatry Online can be downloaded to a PDA. To use this feature, choose the "My PsychiatryOnline" link on their website and follow the instructions. Before installing content, a user must register for a free personal account and download free Mobipocket reader software available from the website.

The entire DSM-IV-TR Classification may be downloaded to a PDA through this link: http://www.psychiatryonline.com/resourceTOC.aspx?resourceID=1

For further information on these and other PDA resources offered through the library, please contact Abby Holt at HoltAbby@uams.edu or 686-6748.
Searching the Online Catalog: New Interface Search Tips

Have you searched the library online catalog for books or journals lately? If so, you have probably noticed that the catalog has a new look. Actually, the catalog contains the same records for books and journals held by UAMS Library, ACH Library and the AHEC libraries. Just the search interface has changed. From time to time in future newsletters, the library staff will offer tips for using various features of the catalog.

Tip #1 The new catalog interface provides two levels of searching...

BASIC

<table>
<thead>
<tr>
<th>Search Library Catalog</th>
<th>Search the library's holdings...</th>
</tr>
</thead>
<tbody>
<tr>
<td>Keyword: herbal medicines</td>
<td>View Entire Collection: exclude</td>
</tr>
<tr>
<td>Search Tips</td>
<td>Advanced search</td>
</tr>
</tbody>
</table>

OR

ADVANCED
Tip #2 Sophisticated command language searching is now available.

Phrases: Use quotes around words to be searched as a phrase.

   Ex. “United States Supreme Court”

Truncation: Use an asterisk to find a word’s variations or plurals. (1-5 characters)

   Ex. Environment* polic*

Use a double asterisk for open-ended truncation.

   Ex. Pharmac**

Boolean Operators (AND, OR, NOT) are all available as are Proximity searching, nesting and the ability to search specific fields. For more information on searching options, see: http://www.libcatalog.uams.edu/search/Y

For more extensive help with searching the catalog, please come to the Library Reference Desk, Monday-Friday, 7:30 a.m. until 6:00 p.m. to speak with a librarian. You may also call 686-6734 or e-mail LibraryReferenceDesk@uams.edu with questions or to make an appointment to meet with a librarian.

UAMS Spam Filter:
Alert for Searchers

Have you recently e-mailed PubMed or EBSCO search results to yourself or to colleagues on campus but never received them? If so, it may be a problem with the settings on the new junkmail system UAMS IT is using. Even if you have previously UNJUNKed e-mailed search results, the spam filter may still catch future e-mailed search results. The filter may catch search results even if you have added the domain address to the accepted file. If this is happening to you, try this solution:

Solution:
1. Go to //junkmail.uams.edu
2. Login w/ campus id & password
3. Choose "Settings" and uncheck box for adhering to corporate defaults.
4. Click “Apply Changes.”
5. Under Anti-Spam Techniques, click Anti-Spam Aggressiveness.
6. Uncheck the corporate defaults box. Apply Changes.

7. Also, under Anti-Spam Techniques, you may add listservs and domains that you want to allow through, including those domains that send the search results. You must do step 6 otherwise the corporate defaults can override servers in the Allowed list.

UAMS IT and the Library are working together to find solutions to difficulties that occur with the new spam filter. The IT department reports that the filter is already sparing users thousands of junk e-mails and potentially damaging viruses daily. We certainly appreciate their diligence in making our e-mail safer and easier to use. Look for updates on this and other software in future issues of the UAMS Library Newsletter.

For further information, please contact Susan Steelman at SteelmanSusanC@uams.edu or call the Library Reference Desk at 686-6734.
