Four-Legged Stress Reducers

Tuesday, February 4, 2:00-3:00 pm

There will be a therapy dog in the Library, Tuesday, February 4, 2:00-3:00 pm for a de-stress session.

Rusty, and his owner, Carol, are members of the UAMS SPOT teams that visit patients in the hospital. We are providing the teams as a service to our students that could use a short break from their studies. The dogs do not bark and are certified therapy dogs.

Rusty and Carol will be stationed on the First Floor in the soft seating areas close to the staircase. They will be welcoming groups and walk-ins.

Don’t forget to leave feedback so that we can better accommodate students and dogs in the future. Comment slips will be provided.
